Report

Last Saturdays 300m service rifle practice was called off due to the rain that we received that morning. The rain was forecasted to go on into the mid after however it was pretty much all said and done by 12.30-1.00pm.

But in that time, there were falls of anywhere from 40mm to over 60mm of rain in certain areas of the North West which is absolutely fantastic. I definitely enjoyed it.

The 300m service was going to be the first chance for members to get in some practice for the ANZAC Memorial Matches which is fast approaching and is set to be held on Saturday the 27th of April.

You should all know by now that the new Long Tan Match will also be contested on this day and last Saturday was going to be the first chance for those that haven't, to have a look at and to get some sight settings on the figure 11 target at 300m which will be the target for this match.

Well don't despair! **This Saturday the 6th of April** will be another chance to have a crack at the figure 11 and practice etc as well as practice for the 300m Field Class which is the course on the program.

The range will be open from 12.30 for sign in and prep with the practice to get under way shortly after. Standard range fees will apply.

Working Bee: Saturday the 13th April

Just a reminder that there is a working bee set down for the 13th of April where a lot of work is required to be completed.

Target mantle repairs, flagpole repairs and all the usual targetry prep for the upcoming ANZAC Memorial Matches and the Field and Service Rifle Mid-Year shoot.

Arrangements for the dozer to be in use have been made which will see the back stop as well as a bit of a touch up of the 300m mound.

If members can spare an hour or two or even the morning that would be great. Hope you can make it.
